PROFESSIONAL SUMMARY

I have over 7 years of industry experience in designing and developing web applications. My expertise in modern frontend frameworks such as Vue and React, along with my strong background in HTML, CSS, and JavaScript/Typescript, allows me to create visually appealing and high-performing websites. I have a proven track record in delivering high-quality products for e-commerce and SaaS businesses in the USA and GB. I am always looking for new opportunities to improve my skills and work on challenging projects.
